

Aghadoe Heights Hotel & Spa

COVID-19 Update

PLAN TO RE-OPEN:

On July 20th (per Irish law), with pool and spa closed per government guidelines until August 14th.

SERVICES:

All food & drink offerings will be served at tables only.

HEALTH & SAFETY PROTOCOLS:

We are following strict guidelines issued by the Irish Health Organization, the Irish Hotels Federation and we are working very closely with our local health officials. We are in the process of training 2 staff members as Covid 19 officers, they will be on duty in the hotel between 10-12 hours per day actively training, checking that set procedures are being maintained and implemented by the staff and guests alike.

Strict guidelines are in place in relation to the max capacity within the hotel. We would envisage operating between 30-40 percent occupancy; this will allow us to abide by social distancing policies and to manage our staff and guests' health and well-being at all times.

GOOD TO KNOW:

Specially trained Covid19 staff will be on site with the sole job of ensuring our guests' and staff safety; this role will in no way be compromised and their training and efforts will go a long way in ensuring full compliance of the set rules and requirements.
