

IL PALAZZETTO

The 19th-century Palazzetto lies atop the ancient stones where the fabulous banquets of Lucullus were once held, right on Piazza Trinità dei Monti and overlooking the Spanish Steps. In 2002 Il Palazzetto was completely restructured to offer a cozy ambience with high standards of accommodation. It offers a location of enchantment that will make each stay a memorable experience.

The décor offers a harmonious combination of innovation and tradition recalling the entire building's neo-classical structure.

Il Palazzetto offers four exclusively furnished boutique hotel rooms located on the 3rd and 4th floors, three of which overlook the Spanish Steps. The rooms are elegant and spacious, decorated in beige and cream-colored hues with accents of velvet and satin, offering guests maximum comfort along with the sensation of being in their own private residence with the added luxury of impeccable service and incomparable location.
