

At the sublime intersection of the black volcanic sands of Perivolos Beach in eastern Santorini and the midnight blue waters of the Aegean Sea stands Istoria, an elegant 12-suite retreat for couples of all nationalities. A stripped-down contemporary aesthetic animates a next-generation social hub for sophisticated travelers featuring a spa and a restaurant, that is a meeting place for those ‘in-the-know’.

Kalia Konstantinidou

▲ Kalia is a woman who makes a statement. Certainly with her sense of style, the way she assembles her beautiful compositions and by her organic approach to hospitality. She also made a statement when she inaugurated Istoria, an uber chic resort on Santorini's undisturbed eastern side. Kalia chose rustic yet sublime textures that juxtapose perfectly with the barren terrain and the black sand beach in front of the hotel. Spacious suites are bathed in sunlight and take advantage of the uninterrupted views of the Aegean Sea. Kalia sure knows how to make a statement.

MDV
