

# Vedema, a Luxury Collection Resort

★★★★★

The enchanting Vedema Resort has evolved from a family estate located on a 400-year-old winery, into a prestigious world class resort blending traditional architecture and contemporary interiors. Located within the outskirts of the medieval village of Megalohori, the resort was recently remodeled including bathrooms and enhanced in-room technology. The ambiance of former wine cellars now provides guests with both an elegant and enchanting dining experience and relaxing spa treatments in which to indulge.
