PAROS, GREECE

Parilio Hotel

Allowing its guests to tap into unspoiled nature, new luxury hotel Parilio is an architectural ode to the laidback island of Paros. With its neutral palette of white, grey, ochre, ivory and sienna, the 33-suite hotel allows its surrounding landscapes — gently rolling hills and pristine beaches — to take centre stage. Exemplifying the idea of simple luxury, Parilio's spaces are finished with contemporary Greek design, objets d'art from leading European designers and ceramics sourced from an innovative studio in North Africa.

KEEP TRACK

From LugLoc, a luggage tracker that has been long praised for its accuracy and efficiency, comes the GEGO Global Tracking Device. Using 3G technology (instead of Bluetooth) the GEGO boasts worldwide coverage, making it one of the most advanced and reliable real-time trackers on the market.

FIND PEACE

Cancel out background sounds with Bose's new 700 headphones. Featuring the latest in noise-cancelling technology, as well as a

sleek, comfortable and flexible design, they promise to stand up to the loud and often-harsh nature of travel — even for those who fly frequently.

BE UNDERSTOOD

The Ambassador translation tool from Waverly Labs is a breakthrough in tech of its kind. The simple, smartphone-connected earpiece allows users to transcend any language barriers via cutting-edge technology capable of translating multiple conversations at once. Available for pre-order now.
