

terme di
SATURNIA
SPA & GOLF RESORT
TUSCANY

The thermal water of Terme di Saturnia, one of the most powerful and important in the world, emerges untouched, at the rate of 500 liters per second. Its constant temperature, 37.5 ° C, is the same as that which protects life at birth.

Water of life from the heart of the earth

TERME DI SATURNIA

SPA & GOLF RESORT

The resort is an ancient, tranquil and elegant travertine-stone building in harmony with its surroundings. In the centre, the large pool, fed by a natural spring which has been flowing for thousands of years, the benefits of which, for both the body and mind were well known to the people of antiquity, the Etruscan inhabitants of ancient Aurinia - a citadel rich in history and splendid ruins which is not far - and the Romans, who renamed it Saturnia in honour of the God who chose it as his earthly home at the time of the Golden Age. All around, the relaxing Maremma countryside with its spectrum of hues, ranging from the dark brown of ploughed fields in Autumn to the fantastical white of the Winter mists, the green of Spring with red poppies, reminiscent of the paintings of Monet, to the Summer gold of the wheat fields. The grand park of thousand-year old pines, the restaurants that are reflected in the water enveloped by a blue mist create a charming atmosphere that invites one to abandon the stressful pace of everyday life and to recover the calm, natural rhythms. Accompanied by experts in the field, tailor-made programs for each guest enable each patron to embrace a healthier lifestyle, following a path of regeneration inspired by the pleasure and the beauty surrounding them. The mild climate of the Tuscan Maremma and the hot springs make the Terme di Saturnia golf course a great place to play all year. A championship course of 6,316 metres over 70 hectares that winds through the iridescent landscape and the vivid nature of the Maremma countryside.

The heart is gladdened

NATURE CELEBRATED

Glimpses of history, ancient visions

The smile when greeted is a warm welcome

ELEGANT SPACES

Subtle lighting, soft shades

The comfort, the style

SPACIOUS ROOMS

Rooms and suites, a world of refined design and character

Corners of

PEACEFULNESS

Relax in the gardens, protected by trees, full of intoxicating floral fragrances

THE ANCIENT MINERAL SPRING

Deep in the heart of the Amiata mountain is the magic potion, rainwater takes forty years to find the right balance in the valuable components, drop by drop it is distilled between the rock walls. It flows, protected in clay channels and pours, miraculously, into the natural spring of Terme di Saturnia Spa & Golf Resort that, thanks to this source of knowledge, gives guests the unique experience of relaxation and comfort.

WATER OF LIFE

In its slow path of transformation, the thermal water slides down layers of clay, through underground rivers, seeping down and being enriched by vital elements from the earth, full of valuable minerals and gaseous components. Protected by a rocky wall, which prevents contamination, the thermal water, one of the most powerful and important in the world, emerges untouched, at the rate of 500 liters per second, pure and full of healing properties, in the great natural pool, glimmering like a mirror, which is the beating heart of the Resort. Its constant temperature, 37.5 ° C, is the same as that which protects life at birth.

THE SPA

The Spa, one of the largest and most award-winning in the world, built with natural materials, engulfed in a warm light, and delicate sounds creates a perfect environment for both mental and physical relaxation. The properties of the spring water, the latest equipment, up-to-date methodologies and a team of experts in their field are the best combination for a total course of regeneration.

THE ROMAN BATH: The magic circle of the pool, the imperial columns, healing waters where worries dissolve. The sweeping view across the sky, allows the mind to take wing through the skylight.

Like gold drizzled on the skin
THE ESSENCE OF PLEASURE, SACRED SPICES
Amber spheres of health and regeneration

Relaxing walks listening to the breathing of the earth

MOVEMENT IS JOY

And the body finds its harmonious forms

A prestigious golf course designed by Ronald Fream

NATURE SPARKLES

Carpets of grass, sand traps and water obstacles, the game comes to life in the sweet hills

Built with total respect for local nature

A SPECTACULAR COURSE

where you can easily come across, in the early hours of the morning, deer, porcupines, hares, pheasants and many species of birds typical of Maremma

RESTAURANTS

The Tuscan cuisine has been reinvented with the creativity of the Chef; the menu is a new experience. AQUALUCE, the restaurant which is mirrored in the water. A blend of the classic and invention, the food is a surprise, the dishes prepared by the hand of an artist.

NEXT DOOR, FOOD AND HEALTH.

An authentic temple to flavours, the All'ACQUACOTTA restaurant boasts 1 Michelin star. The produce farm-to-table, the core of authenticity, the fruits of the earth, eagerly complementing your well-being.

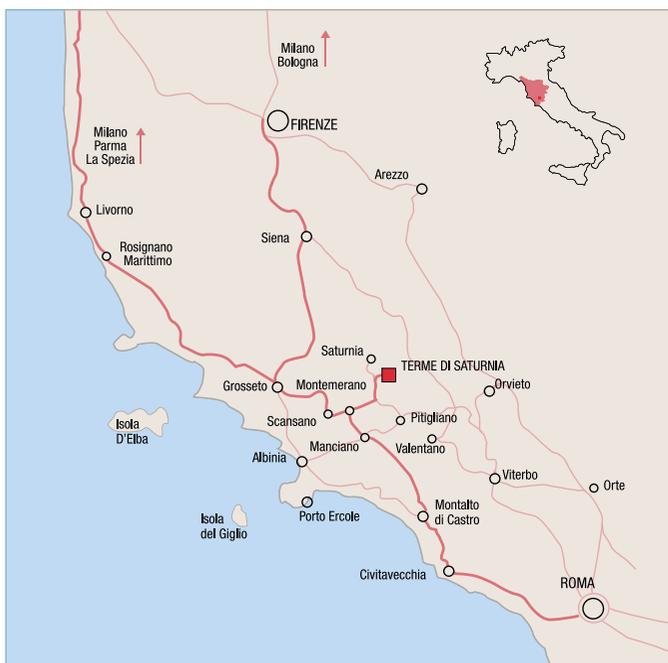

The Spring lives

NIGHT IS MAGIC

The steam rises, the air shimmers, the sky is illuminated with stars

LAND OF DREAMS
ANCIENT RUINS
THREADS OF THE PAST
