

# LAND EXPERIENCE

## WINE TASTING

talea  
COLLECTION

Life in Puglia follows the rhythm of the **agriculture** and this land is known for the precious wines with **25 different DOC regions**. In the recent past Apulian wines were considered blended wines, only destined to enrich those of northern Italy. Over the past twenty years, everything has changed and the focus has increasingly been in the **quality of these indigenous wines**. Let's start your Eno gastronomic itinerary discovering the **Primitivo**, a wine of ancient origin. An intensely, fragrant and full-bodied red wine paired with dishes of character widespread in the area of MANDURIA and GIOIA DEL COLLE. Don't miss a wine tasting with a professional **sommelier who will escort** you in your journey through a very suggestive ethnographic museum in the old wing of an underground cellar. In the cradle of **Valle d'Itria** we recommend a stop at NOCI. With its typical "**gnostre**", open courtyards in the most enchanting corners of the old town you can taste wines accompanied by appetizers while attending a wine lesson. In the bountiful country-side of LOCOROTONDO area which has always been particularly suited to the production of white grape of the indigenous, high-quality **Verdeca, Bianco d'Alessano and Minutolo varieties**, we recommend a visit to a wine cellar and beautiful native vineyards. Going South to LECCE in SALENTO a wine has won a growing number of enthusiasts in Italy and abroad the **Negroamaro**. The name stands for a wine whose fruit is black, as confirmed by the Latin etymology of *niger* and the Greek etymology of *mauros*. It's dark, but smooth and warm and in the single - variety it gives excellent results. In the area extending from the North of Puglia the **Nero di Troia** is a new, little known indigenous wine coming to the fore. Unusual and unexpected reds are produced from it. We can set an exclusive WINE TASTING with our sommeliers at MASSERIA MELOGRANO starting from 6.30 pm. It is necessary to book the tasting at the reception.

**Estimated Total time for the activity: from 60 to 90 minutes according to wines tasted**
